GHYAN-YI Established in 1979, GHYAN-YI started as a manufacturer and exporter specializing in automobile parts and accessories. Since 1990, with techniques upgrading, we transformed into production of lawn and garden tools. Although being involved in the industry of garden tools for 14 years, we have been devoting to product innovation that earns us patents worldwide. At the year of 1999, we gained ISO 9001 approval; meanwhile, we were awarded Gold Medal for Great Enterprise Role Model. The certification and honor has proved the support and affirmation from customers abroad and at home on our products. We strive to pursue perfect quality. Your satisfaction and affirmation is our responsibility. Order placement and cooperation proposal are welcome!

Multi-Functional

Flat Watering-Hose

Special Design Easy use

THE PROFILE AND FUNCTION OF SINGLE/TWIN HOLE HOSE

Our company always keep continued to develop and research the new product, that the water hose could used conveniently by consumer, as following:

- **SINGLE HOLE HOSE:** When we use the sprinkler and water hose, they always bend and fold cause the water couldn't flow swimmingly. Focus on this problem, our company has developed and researched this hose can unbend and unfold when the water are self-motion and flowing, makes us unhindered at work.
- **TWIN-HOLE FLAT HOSE:** In connection with the hose bracket, we aim to overthrow the traditional market. Their product cost higher and put away difficulty. Our company wants to recommend and supply the new product "TWIN-HOLE FLAT HOSE ", with convenient, light, handy, and put away easily. This unique function of new water hose wouldn't limit to length, space, and use mode. You can feel comfortable and relaxed when using, try it!

How to use deluxe type hose reel?

- Option A**
1. Fit to tap water connector (T-1300B)
 2. Screw pipe connector (T-1400BL) to hose reel base (A1-1511BW)
 3. Connect 3m flat hose (T-1200G) to tap connector and hose reel base.
 4. Connect trigger nozzle (G-1701B) to hose reel hose.

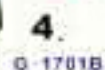

A1-1511BW

Option A for watering flowers & washing car

6 patterns of trigger nozzle

Accessory of deluxe type:

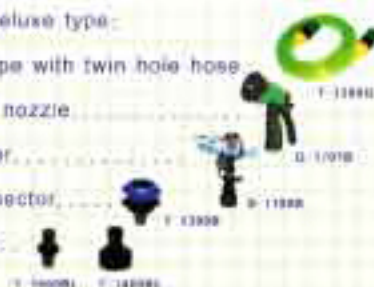

3m flat PVC pipe with twin hole hose

Plastic Trigger nozzle

Plastic Sprinkler

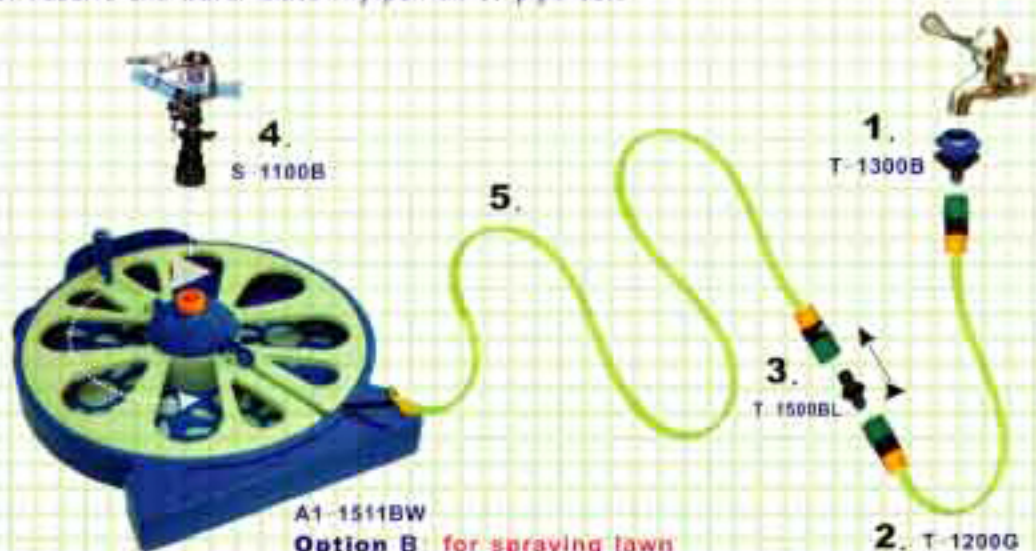

Tap water connector

Pipe connector

Option B

1. Fit to tap water connector (T-1300B)
2. Connect 3m flat hose (T-1200G) to tap connector
3. Connect pipe connector (T-1500BL) to 3m flat hose and to hose reel hose.
4. Screw Sprinkler (S-1100B) to hose reel base (A1-1511BW)
5. For best results and water smoothly pull all of pipe out.

A1-1511BW

Option B for spraying lawn

For best results use pressurized water.
